Dr. Harwood said that some benefit movie tickets from the "Mikado" show are yet to be returned.

The chairman expressed his appreciation for the cooperation shown by the various sub-chairmen, including Orela Naragon, Floyd McKee, Andrew MacLeod, J. M. Kelley, Dr. R. T. Holbach, N. I. Walken, H. L. Wyckoff, Eddie Howell and the Boy Scouts, Mrs. E. E. Dyball and co-workers, Mrs. L. D. Early, Herbert Hansell, Frank Davis, Jean Carey and Lois Hoover.

Announcement was made that an Easter flower had been sent to Mrs. F. C. Heintzelman of Boardman, county juvenile matron, who is ill.

Deborah Beery, juvenile matron, served refreshments.

The grange will go to Garfield work April 10 to present degree work.

Powder Magazine  
Seen As Possible  
Mine Blast Cause

Shattered Container Found Near Scene of Explosion  
In Which 72 Died; State Industrial Chief  
Begins Investigation

(By Associated Press)  
ST. CLAIRSVILLE, March 26.—A powder-magazine, blasted open and shattered, was found today in the Willow Grove mine where an explosion March 16 killed 72 miners.

The powder box was located near the scene of the explosion and company officials said it might have caused the blast or that it contributed to its destructiveness.

Three other powder boxes near the scene were found intact. Each box contained about 500 pounds of powder.

George Strain, director of the state department of industrial relations, with state and federal mine inspectors, immediately began an investigation.

Accident-Proof Boxes  
Black powder, used for blasting coal and rock, was stored in boxes which, officials said, were of a new design and considered virtually accident-proof. The explosive cannot be detonated in the boxes unless the lids are open.

One theory advanced by a company spokesman was that a lighted cigarette might have set off the powder. Smoking was permitted in the Willow Grove mine and it is customary also in most eastern Ohio diggings, officials said.

At a congressional committee investigation of the disaster last week, company officials and state inspectors indicated they considered it highly improbable that a powder blast was responsible for the accident.

Rescue Workers Injured  
Two rescue workers narrowly missed death last night when a truck struck an old timber causing tons of debris to fall.

Henry Valentine, St. Clairsville Negro, was taken to a Martins Ferry hospital with internal injuries and a compound leg fracture. Joseph T. Kelly of Neffs suffered a dislocated shoulder and possible internal injuries. He was in a Bell-air hospital.

The men were nearly buried by the rock fall and were saved by companions.

MRS. D.E. MATHER  
DIES IN SLEEP

Salem Woman Succumbs at Home  
of Daughter in Chicago; Plans  
For Funeral Not Announced

Friends here have been notified of the death of Mrs. Minnie R. Mather, about 70, widow of Daniel E. Mather of Salem.

Mrs. Mather died in her sleep last night at the home of her daughter, Mrs. Sanford Hale, in Winnetka, Ill., where she was spending the winter.

Since the death of her husband about three years ago, Mrs. Mather had spent the winters with her daughter, living in Salem during the summer months with Mrs. C. B. Hunt.

She resided in Salem for more than 40 years, coming here from Alliance with her husband, who was a funeral director.

In addition to Mrs. Hale, her only daughter, she is survived by one son, Kenneth Mather of Cleveland, and one grandson.

Funeral arrangements have not been learned.

England Is Much Distraught  
Because U. S. Isn't Fighting

And So, Says Writer, Her Press Is Put Out Because  
"Goebbels' Lies Sweep America"

By DEWITT MACKENZIE  
The English press has been experiencing a wave of anxiety over what the United States thinks the war, the burden of its fears being summed up in such headlines as "Britain loses war of words; Goebbels' lies sweep America."

That is to say, British publicity is held to be losing in the race with the brand put out by Nazi Propaganda Minister Goebbels.

Having reached this conclusion, however, the papers don't appear to have discovered any more satisfactory reason for this state of affairs (as they see it) than that "Goebbels' lies sweep America."

This argument about American gullibility might hold good up to a point but it seems to be inconclusive. Abraham Lincoln put the matter rather neatly in the remark that "you can fool some of the people all of the time, and all of the people some of the time."

War Orders Bring  
Expansion Program

CLEVELAND, March 26.—"Emergency" demands resulting from English and French war requirements today prompted an expansion program to increase plant capacity 15 per cent at the Warner & Swasey Co. manufacturer of machine tools and telescopes.

The firm announced a plant addition of approximately 30,000 square feet and reported capacity had been increased a third since last September, with the plant operating on three shifts.

FILM AND RADIO  
COMEDIAN SUED

Bob Burns Named In \$70-  
000 Action for False  
Imprisonment

LOS ANGELES, March 26.—A \$70,000 false imprisonment suit involving allusions to love theft, faced the film and radio comedian, Bob Burns, and others today.

The middle-aged plaintiff, Daniel W. Kere, civil engineer, charged he was abducted from his home in nearby Wilmington Dec. 29, 1938, forced to sign a denial that Burns had stolen the affections of his wife, Millie, and to sign a similar statement releasing Burns' studio, Paramount, from any claims.

Informed of the suit, Burns declared:

"I didn't have any more to do with his wife than you did."

Burns said, however, that Hoge threatened Paramount officials to file suit "about a year ago."

"Paramount" lawyers went to the district attorney's office, "the comedian asserted. "The district attorney's men or somebody brought Hoge downtown to find what it was all about. I wasn't there myself, but they told me he broke down and cried, saying there was nothing to it. Then he signed a paper admitting it."

Burns said Hoge later came to him twice and apologized, declaring "I must have been crazy, Bob—I don't know why I did it."

Burns reported he first knew Hoge in Chicago in 1916 and many years later Mrs. Hoge came to his home one rainy night, telling Mrs. Burns her children were hungry.

Burns said "we gave her \$5."

Others named in the action are Paramount and a Paramount lawyer, Jacob Karp, ten John Does and two Jane Does.

Hoge charged the defendants, in furtherance of a conspiracy, ransacked his home and took valuable papers and documents before bringing him to a downtown office building. There he was threatened with violence or death unless he signed the two papers, he said.

Borah's Widow Will  
Carry On Fight Her  
Husband Waged

LOS ANGELES, March 26.—The widow of the late U. S. Senator William E. Borah of Idaho may actively carry on his principle of keeping the United States out of foreign entanglements.

"He died fighting for that principle," she told interviewers. "Perhaps a lone woman can't do much, but I mean to keep on with my husband's fight."

"I'm afraid America is moving away from the isolation he favored. Today's events prove we must maintain our splendid neutral position."

"I can't really do anything for a while. You see he (Senator Borah) was my anchor. And now the anchor is gone. I must drift a bit. As for returning to public life—I don't know. I must wait and see."

Mrs. Borah was enroute to join her sister, Mrs. Max Luedemann, at San Francisco, whence they will sail Thursday for Honolulu.

No Secret Military De-

(By Associated Press)  
WASHINGTON, March 26.—The army and navy's nod aside today to give France and Britain virtually unhindered access to the latest models of American warplanes.

The two services formally agreed late yesterday on the new export policy, acting on the belief that national defense would best be served by the consequent expansion of the nation's aircraft industry and by the rigorous testing which American-developed ships will receive in Europe's aerial war.

Release 600 Planes  
Barring congressional interference, officials said, the new policy forecast these immediate results:

1. Release to the allies of some 600 planes now under construction for the army or navy.

2. Acceleration in the placing of an expected 1,000,000 in Franco-British aircraft orders.

Secretary of War Woodring is expected to submit a detailed expansion of the new army-navy stand when he appears tomorrow before the house military committee which is investigating foreign plane purchases here. The previous policy had been not to release any military craft for sale until a better type had been perfected.

Officials emphasized that no secret military devices would be supplied with the planes. President Roosevelt said recently that the country possessed some secrets which foreign nations presumably cannot duplicate.

Experimental Ships Listed  
Besides turning over to the Allies planes already under construction, officials said that the new policy would permit the placing of orders for the latest army and navy experimental ships, hitherto withheld.

The Allies, on their part, would be required to furnish complete data on the performance of the planes in active service in order that subsequent models may be improved for the benefit of American air forces.

Another stipulation requires a guarantee that the Allies will not manufacture planes of American design in Europe to safeguard the domestic aviation industry and the employment of aircraft workers.

Michigan Representative Injured  
In Auto Accident Leaves Salem  
City Hospital

Representative Paul W. Shafer, 46, of Battle Creek, Mich., congressman from the Third Michigan district, injured in an automobile accident near Egleston, Ohio, last Wednesday night, was removed today to Youngstown City hospital.

Attaches at Salem City hospital, where Shafer has been a patient since the accident, today said his condition was "much improved," although it remains serious.

Shafer is to receive treatment by a Youngstown specialist in neurosurgery. When his condition has improved sufficiently, it was indicated, he will be put in a cast and eventually removed to Washington.

Shafer's new sedan failed to make a curve, shooting off the road and impaling itself on guard rail posts. He was on his way to Three Rivers, Mich., at the time, to attend funeral services for his father.

## INSIDE OUT

Critics who have been peering at the national labor relations board from the outside are open to the charge of not understanding, or wanting to understand, the board's problems.

But when four regional directors of the labor board, ordered to make recommendations for improvement, find grave faults in its operation, they can't be accused of malicious sniping. Their jobs are at stake.

To be sure, the faults they found were in administration, whereas the things most critics object to are the board's policies and even the law under which the board operates. They were not criticizing ideas, but methods.

In stifling their report it appears that Members Madden and Smith added one more count to the growing indictment of their conduct of the board's affairs. Charged with developing an experimental agency of government upon which rested the hope of more orderly labor relations, the two majority members of the board seem to have made the error of rejecting constructive criticism. Against the wishes of Member Leiserson, they exposed themselves to the accusation of arbitrariness—most damaging criticism that can be made of public officials in a free country. The Smith committee of the house of representatives investigating the board has turned up no more unpleasant evidence of incompetency than the board's failure to act on its own recommendations for improvement.

## UNWRITTEN STORIES

A few weeks ago news from Finland rated top position in the American press. The ominous silence that has supplanted reports of the Finns' brave defense does not mean there is nothing happening, but only that the focus of news interest has shifted.

On Thursday, the Finnish government asked the League of Nations for reconstruction aid. The same day it was reported from Helsinki that the coalition war government is expected to resign soon and that removal of Finns from the Karelian Isthmus was virtually complete.

From Moscow came information that 23 Soviet army units had been decorated for valor and heroism in the invasion of Finland, a wholesale distribution of honors. From Oslo, meanwhile, was issued a description of Scandinavian fears growing out of increasing pressure from all belligerents. To Norway and Sweden there has been no settlement, only an increase of danger.

These seem to be unimportant details now, yet one suspects that in the mass they constitute the great unwritten story of the new conflict—the consequences of violence. Like the experience of Poland under its new masters and the experience of Austria and Czechoslovakia, they prove that the new war like the old one is planting the seeds of future wars when the victims of oppression will try to regain the security and dignity they have lost.

## PERVERSITY

Sometime there'll be a year when New Year's eve will be clear, sleekless and snowless, Easter will be balmy and bright. Memorial day will be cloudless, Independence day will be clear and not too hot, Labor day will be a repetition of Memorial day. Thanksgiving will bear just a suggestion of winter without any of the real thing, and Christmas eve will stage a perfect snowstorm, clearing in time for a perfect Christmas day setting.

That will be the year when the sap will run just right in the spring, all Saturdays will be perfect during football season, there will be no late or early frosts, the winter won't be too long or too severe, it will rain just enough to make everything grow, everybody will have enough water and not too much sunshine, and everybody's summer vacation will be brightened by an unbroken succession of perfect days. Perhaps there has been such a year, but no one remembers it.

All the remembered years have been characterized by the general perversity of weather—like this year.

## A HOBBY?

With emergence of James A. Farley as an unqualified candidate for the Democratic party's presidential nomination, the nation's most interesting collection of political posts seems to be complete.

First, there is "Genial Jim," the country's best contact man, a post without portfolio.

Then there is Postmaster General Farley, the postoffice dedicator, patronage dispenser and philatelist, with portfolio.

Then there is National Chairman Farley, also with portfolio. By tradition, a national chairman is neutral, but Mr. Farley's not a traditionalist.

Then there is New York state Democratic Chairman Farley, another post with portfolio. On March 15, 1934, Mr. Farley said he would give up this post, but nothing ever came of the promise.

And now there is Presidential Candidate Farley. As "Genial Jim" said to the postmaster general in the hearing of the Democratic national chairman and the New York state Democratic chairman, "I'm a busy man these days."

## MARKING THE SPOT

Hastily, for time is fleeting, the outgoing regime in Louisiana has erected a statue of its founder, the late Huey P. Long, over his grave on the lawn of the state capitol. Louisiana won't be allowed to forget its "kingfish."

It shouldn't forget him. If the state's new political leaders are as smart as they need to be to lead Louisiana back into the fold of representative democ-

racy they will tend his grave with loving care and add more searchlights for night illumination.

Natives should be encouraged to lead visitors to the spot. It is by way of being an American shrine commemorating the constant danger faced by free men—the beguiling promises of opportunists who hunger for power.

## THE STARS SAY:

For Wednesday, March 27

AN EXCITING day, with swift-moving events transpiring in all departments of life, is forecast by the lunar and mutual aspects. It is probable that the adventurous and high-tensioned occurrences may be experienced in the realm of the emotions, romantic attachments or love life, where tempest, jealousy, passion and violence are likely to burst all bonds of restraint and prudence. In business impetuosity, strife and aggressiveness may prove detrimental, whereas calmness, consideration and subdued handling would be profitable.

Those whose birthday it is are on the brink of a year of high-pressure experiences, with all the energies and faculties under tension and stress to a perilous degree. Romance, emotional urges and all intimate expressions are subject to distress and disturbance because of impulsive and reckless behavior. Business also suffers from want of restraint, cool judgment and discreet management.

A child born on this day may be active, energetic, aggressive, original and sagacious, with tendencies toward jealousy and vindictiveness, unless given early discipline. It may have a softer side, social, diplomatic and friendly.

You have reason to feel complimented when someone imitates you. No one counterfeits a penny.

## THE GREAT UNBALANCING ACT!

## Clendening Eases Worries Over Baby's "Soft Spots"

By LOGAN CLENDENING, M. D.

What is the cause of slow closure of the fontanel in an infant?

The fontanels on the baby's head are what is called the "soft spots". There is a large one in front and a smaller one behind. Doctors are used to mothers who get worried about the posterior fontanel because they accidentally discover it and think there is something wrong with the baby's head.

The posterior fontanel usually closes within a few weeks after birth. The soft spot, or fontanel, in the front closes gradually, often taking as long as 18 months to do so. This, however, is only a general rule and exceptions are common.

Dr. Clendening will answer questions of general interest only, and then only through his column.

Among causes of delayed closure, first place should be given to rickets, hydrocephalus, or water on the brain, will also cause delayed closure. The fontanel closes slowly in the condition of cretinism, which is due to deficiency of the thyroid gland in infants. So-called "social disease", often blamed, is not a cause of delayed closure.

Rings Under Eyes  
What are the causes of dark shadows under the eyes in a person apparently in good health?

This condition gives rise to a great deal of unnecessary alarm and brings a question of some kind or other to my desk at least once a week.

The dark rings under the eyes are simply due to veins showing up under a thin skin. People either with naturally thin skin or with a rich plexus of veins in the underlid will have this condition all the time. In time of stress, emotional experiences or dissipation, the congestion of the veins will cause temporary "rings under the eyes".

Scorpion Stings  
Are scorpion stings dangerous and what is the treatment for them?

The question comes from Texas. In Texas and Arizona scorpion stings begin to occur about April or May. A good deal of argument exists in those localities as to whether scorpion stings are ever fatal and even if they are serious.

They may not be very serious in adults, but in children they cause extremely alarming symptoms; the younger the child, the more alarming the symptoms. A child, when stung, cries out with pain, although there is usually very little sign of the sting, either redness or swelling. The victim soon becomes restless and this increases. It frets, turns constantly, and will not remain quiet. The abdominal muscles become rigid and there are contractions of the muscles of the arms and legs. Temperature may go up to 104, and breathing is difficult, something like asthma. In those who recover, the acute symptoms last for about 12 hours.

Sedatives are advised, especially the barbiturates. Compresses of concentrated ammonium hydroxide solution, if applied promptly to the wound, are beneficial. There is a scorpion serum which has given good results.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. ## "Advertising Saves Me Time, And Saves Me Money"

"I've heard that someone has said that Russia gets along without advertising. Well, so did Ancient Egypt, but I'd rather live here now, and read the Advertising... I'm not trying to be funny. First of all, it isn't true that Russia gets along without advertising because I have seen advertisements of the Russian Government and Russian Travel Agencies in this country. But that's not important... Advertising does a lot for me that I couldn't do for myself. It tells me usually which products are good. When I see an ad for a breakfast food, I generally know what that food is and its characteristics are; and I can tell whether the price is right. That is so true and so important to me and other women that even potatoes and onions today are being packaged, branded and advertised—they are of selected quality and size, are clean, and come in accurately measured quantities in standard packages. I have confidence in advertised products because I have found them to be reliable. So, I buy without hesitation, and that saves me time... As for price, I have found that advertised goods sell on a quality-price basis. For the price, the advertised product usually offers as much, and sometimes more than the unadvertised product of similar quality. I say, without hesitation, therefore, that Advertising saves me money, too."

# "SELF MADE GIRL" by HAZEL LIVINGSTON

## CHAPTER XIX

Linda never knew how close she came to losing her job. Mr. Bottinger was frantic. What ALLIED the girl? He spoke to her sarcastically more than once, and was doubly irritated to see that it was lost on her. She didn't know he'd said anything at all.

She'd been so sensible, so sane! Each a model of a secretary. Well, if she was going to act like this, he'd have to get rid of her.

But by the time he had hardened his heart enough to speak of it, she was herself again. Quiet, quick, efficient. Only her paleness, and new, dark circles under her blue eyes, to show that he hadn't imagined the days of semi-madness.

For Linda it was over too soon. Three perfect days. But in the end nothing to warm her heart except the promise that he'd be back in town at the close of the college year.

To the last moment she waited, she dreamed, she hoped and she prayed for a sign—a word—even the definite assurance that he'd miss her.

"Well, it was a lot of fun, Linda, we'll be doing it again soon."

That was all he said in the end. No promise. No whispered word. No even the assurance that he'd write often now.

Time limped by. If he could be casual, so could she. She'd show him.

Feverishly she threw herself into her work. Mr. Bottinger beamed. Perhaps he'd wronged her. Perhaps she was ill a while back, when he thought she was just flitting. Anyway, she was surpassing herself now.

She saw to it that she got a \$10 raise, which was to be a secret, but somehow the news got out, and some of the girls weren't very pleasant about it.

Linda didn't care. It was only a means to an end, that job of hers, and if it meant a little unpleasantness she could take it. It was herself, her looks, her prospects, her future that she cared about. And the extra ten dollars HELPED!

The girls she met at the club weren't very cordial to her at this time either. She had no time for bridge, she wouldn't oblige by making a fourth just because someone asked her to, and she refused Hester. It would be June very soon. She must be ready... ready for an "X."

She never missed a French class, read all the papers, even the politics that she hated. Went to every literary event possible, even went over to Tanya's, to talk to King and Paul and Gladys and Nola, and find out what was going on. When Glenn came back she'd have some things to talk about, or know the reason why.

It was gratifying that King and Paul were thrilled to see her, and impressed with her new clothes.

Gladys was a little edgy at first. Well, what brings you back? You LOOK prosperous enough!

"Just to see you."

"We've been sitting around for a long, long while, waiting to see you."

"I know. I've been a pig. Gladys, I could have come, but I was afraid that if I got back here I'd stay, and wouldn't go on with my plans for myself. You never had much sympathy with my ideas, you know."

"And you never cared much what I thought."

"I did, though. That was the trouble. I've been so lonely for you all that I could have cried lots of times—and more than once I did."

"Then why didn't you come back?"

"I've told you. Because I was afraid."

Gladys shook her head. "You're a funny child, Linda, and God only knows why you've elected to be the world's most successful business woman. What does it GET you? Now look at me. I used to be a secretary—and a darn good one. You may not think I run this tea room very well, and maybe I don't. But I know that this is the way to have a fun while living. If I could have a chain of tea-rooms and make a lot of money I wouldn't want to. This is FUN—the other way would be just work... ARE you having fun, Linda?"

King put down his everlasting book to listen. Paul pulled up his chair.

"Well, I'm getting where I want to get."

"You're getting to look like a young executive," or a serious

mindful young society gal or something. But what's that going to do for you? You're just gathering a lot of bills, and wasting a lot of time sitting under hair-driers."

Linda laughed. "It's what I want!"

Gladys and King laughed, too. "You're crazy, but I forgive you," Gladys said.

Nola said, "Are you going to earn your dinner, tonight? Or must I put on the uniform and get to work?"

"I'll put it on," Linda said. "I'd like to."

They ate together, after the pay customers had gone. There was a new maid in the kitchen, and she made French pancakes for them. Gladys made an orange sauce and King got out the brandy to burn. It was a very special, very gay occasion. Linda had a grand time. They sat around the fire, for it was a rainy, cold April, and talked until long after midnight.

Linda found herself telling for the first time about Glenn. Not telling much, but hinting a lot. Giving them to understand that it was serious.

"Of course I have my life all planned, and in a way he just complicates it... And yet..."

She didn't say that she was trying to make up her mind whether to choose a career, or a rich man's son, but that was the idea she put over.

They all loved an argument, and a personal one was best of all.

"After all, that's a woman's future—marriage," Nola said.

"Bourgeois!" Linda and Gladys shouted together.

"If a girl has a swell job, and enough money for independence she doesn't have to marry—"

"But what about love? A woman can't live without—"

"But every woman wants security—stability—a home—"

"Shut up, Paul. You're all wet. If a girl has—"

"I tell you any girl will give up any career for love. Love—"

Linda listened, her eyes glowing. She, herself, didn't have much to say. She didn't have to talk. She'd started it. It was all about her. She loved it.

She sat, still in the Russian peasant dress, the silver headress glittering on her head, the gay apron bright in the firelight. She was having a wonderful time.

She thought, I was wrong to stay away... They're my friends, they understand me... I won't miss this again.

Linda woke with a headache, and an all too vivid recollection of some of the things she'd said the night before. It was the first time she'd boasted about Glenn. Her cheeks burned at the remembrance. It was so silly, so cheap, and so untrue.

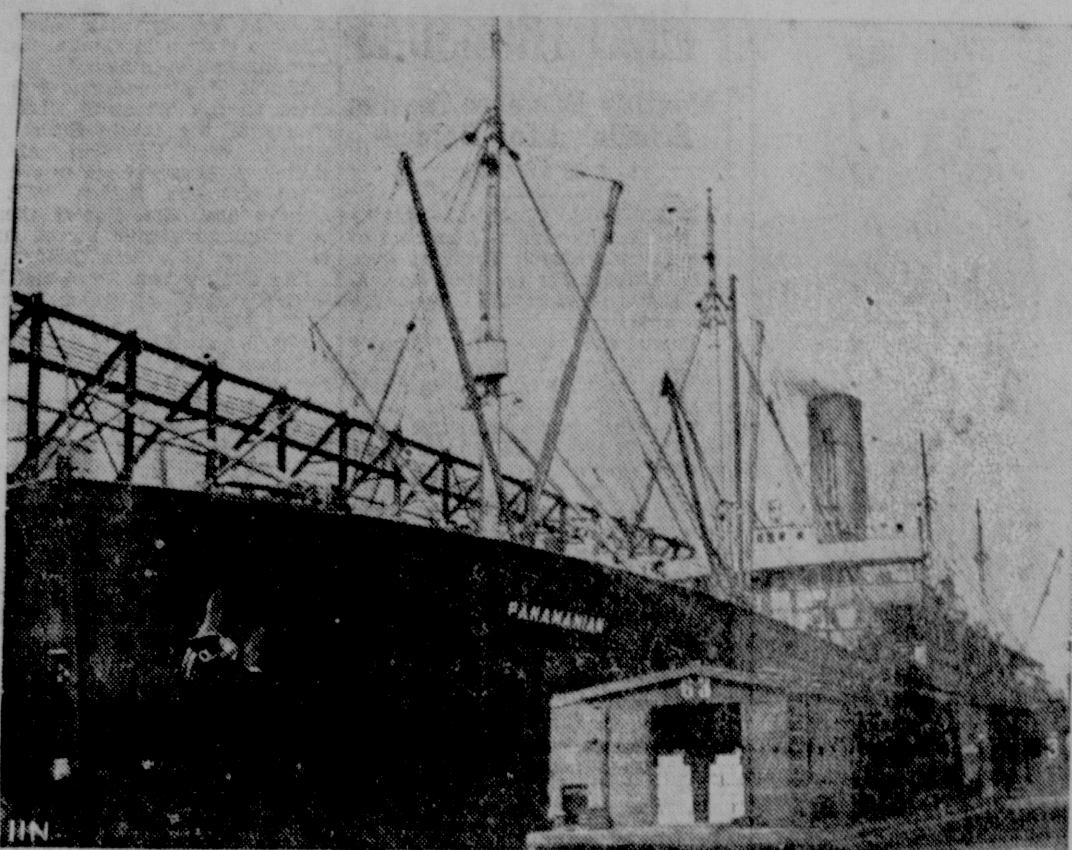

Now, as a punishment, she would not let herself think of him so often, wouldn't let herself write. He didn't... why should she?

But he's busy with finals, commencement affairs, all sorts of things, she told herself, excusing him.

Still, she wouldn't let herself think of him during working hours. Force it out of her mind... concentrate.

Concentrating on the work, trying to grasp the new ideas, understand the detail that Mr. Bottinger was turning over to her now, kept her close to her desk in the outer office near his. She received callers crisply, was almost curt over the telephone. She was completely indifferent to the people she worked with. Even the great Robert Deanning and his much gossiped about secretary failed to interest her.

## Hint Sabotage in Sinking of Big Cargo Ship

This is the steamship Panamanian, owned by Arnold Bernstein, German-Jewish shipping magnate, which sunk mysteriously at a railroad terminal in Baltimore harbor. Bernstein, who was imprisoned for two years and his vessels confiscated by the Nazi government in Germany, had just announced plans for a direct freight service between Baltimore and England. The Panamanian is believed to be the largest cargo vessel in displacement tonnage in the world.

## Theatre Attractions

With a cast which includes performers like Thomas Mitchell, Alan Hale, J. M. Kerrigan, Henry Armetta, even an unassuming little comedy like "Three Cheers for the Irish" has to be given more than passing notice.

The picture, showing at the State Wednesday and Thursday, also includes Dennis Morgan, Virginia Grey, Irene Hervey, William Lundigan, Frank Jenks, and Morgan Conway.

**Sprightly Number**  
A sprightly little number, which even its studio failed to take seriously or work up any great hopes over, the picture steps out of its class to make the grade as top-notch film entertainment.

Mitchell, whose performance as the Irish Gerald O'Hara in "Gone With the Wind" and the Crunk doctor in "Stagecoach" have won him Academy awards for fine acting, does his usual good job in a comedy role as the retired New York policeman who finds life difficult when his three daughters encourage him to run for alderman.

He discovers he is being backed by a notorious gambler, he finds out that his youngest daughter has

married a Scotchman, a young officer who replaced him on the force, and that his second daughter has accepted money for the campaign from a gangster-politician.

Concluding tonight at the State is the first of two pictures portraying the life of Thomas A. Edison. "Young Tom Edison," starring Mickey Rooney, with Fay Bainter, Virginia Weidler and George Bancroft.

At the Grand  
At the Grand Wednesday and Thursday are "Isle of Destiny," with William Gargan, Wallace Ford, June Lang, Gilbert Roland and Katherine DeMiller; and "Framed," featuring Constance Moore, Frank Albertson, Robert Armstrong and Jerome Cowan.

Showing at the Grand for the last times tonight is John Steinbeck's moving story of migratory workers, "Of Mice and Men" with Burgess Meredith as George, Lon Chaney, Jr., as Lennie and Roman Bohnen of the New York Group theater as Candy. Others in the excellent cast are young Betty Field, Charles Bickford, Bob Steele, Noah Beery, Jr., Oscar O'Shea, Granville Bates and Leigh Whipper.

OTTAWA — The National Gallery acquired \$59,988 worth of paintings last year, according to the auditor-general's report. For Rembrandt's "Portrait of an Artist," \$50,000 was paid.

## Today's Pattern

"CASUAL-WEAR" STYLE

Pattern 4416

This casual, light-hearted dress knows its way around the spring and summer fashion scenes. Anne Adams has given Pattern 4416 a marvellously soft, becoming lines. The pointed yokes form the sides of the young neckline and are attractive with button-trim. There's a smart panel down the front of the nicely flared skirt, and the puffed sleeves are finished with scalloped bands. Both the yokes and the sleevebands look dramatic in contrast. See the very easy, flattering bodice; the softness of the wide sash that ties in back. You might make the front bodice, skirt panel, yokes and sleevebands on the bias for a striking effect in a checked fabric.

Pattern 4416 is available in misses' and women's sizes 14, 16, 18, 20, 22, 24, 26, 28, 30 and 32. Size 16 takes 3 1/2 yards 35 inch fabric.

Send FIFTEEN CENTS (15c) in coins for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

Are you a "problem child" as far as your figure is concerned? If you are irregularly proportioned let ANNE ADAMS PER-FIT FOUNDATION PATTERN 4414 take the guess-work out of dressmaking. It's a "basic figure" pattern that is first fitted and adjusted to your exact measurements in tissue; then cut out in muslin for a permanent record. ### Urges Economy for Cleveland Schools

CLEVELAND, March 26.—Member Thomas J. Martin has offered the Cleveland board of education an economy program, including dropping of 366 teachers, which he says would slash \$1,082,000 from the budget.

The board, seeking to keep within its 1940 budget of \$14,183,058, hopes to slash \$2,308,443 from original department requests.

Martin's plan also would remove half of the clerks, scrap the school gardening program, increase the pupil-teacher ratio by one pupil and give many teachers five periods more a week.

The next meeting will be held Monday evening, April 29.

### Mrs. Leeper Hostess To Past Matrons

Fast matrons association of the Eastern Star enjoyed a dinner and social evening last night at the home of Mrs. Burit Leeper on Tenth st. Cards were played after the dinner.

## Soil Erosion Evils Are Cited By Lower

LISBON, March 26.—Citing the need of strip-cropping and reforestation as a soil erosion preventive in Columbiana county, County Agent Floyd Lower spoke on "Conservation" at a meeting here last night of the Columbiana County Conservation league.  
Thirty-five farmers and sportsmen were present. Lower's talk was accompanied by pictures.  
The county agent said that a survey conducted by the land use mapping committee of the conservation organization, had disclosed that 24,000 acres in Columbiana county are useless because of soil erosion.  
He also said that 56,000 acres were available for reforestation.  
The league last night adopted a resolution applying to the state for more dams in county streams as a means of conserving water and propagating more fish.  
The group was favorable on a proposal that the rabbit season be curtailed. No action was taken officially.  
Members will meet again April 29 in the courthouse.

## DAIRY FOODS RISE TO PEAK

Use In 1939 Is Greatest In 40 Years of U. S. Record Keeping

WASHINGTON—Americans last year set an all-time record for consumption of dairy products.  
Total consumption of all dairy products was the largest for any of the 40 years for which records have been kept, the Agriculture Department bureau of agricultural economics reports.

The consumption per person of butter, cheese, concentrated milks and ice cream—but not fluid milk and cream—was the highest for the 16 years for which the department has been keeping per capita records.

**5 Per Cent Above 1938**  
Americans last year consumed 110,000,000,000 pounds of fluid milk or the equivalent in manufactured products using milk, such as butter, cheese and ice cream. That was 5 per cent higher than in 1938 and 17 per cent larger than the 1924-1929 average.

The per capita consumption in 1939 was 842 pounds. The average has continued to increase during the past 30 years.

The increase has been most rapid in manufactured dairy products—butter, cheese, condensed and evaporated milk, ice cream, malted milk and dried milk. Last year it was 19 per cent above the 1924-1929 average.

On a milk-equivalent basis consumption of these manufactured products amounted to 497 pounds per capita or more than half the total milk consumption. The 1924-1929 average consumption of manufactured milk products was 432 pounds.

**Butter Still Below Peak**

The per capita consumption of butter last year, was 17 pounds. That was slightly larger than 1938, but below the 1924-1939 average of 17.6 pounds. There was a decrease of 22 per cent in the consumption of oleomargarine in 1939. Cheese consumption per capita in 1939 was 5.72 pounds, 2 per cent less than the 1938 peak but 24 per cent greater than the average for 1924-1929. Consumption of condensed milk averaged one-quarter of a pound per person, or only 26 per cent of the 1924-1939 average.

On the other hand, consumption of evaporated milk established a new record high of 16.32 pounds per person, compared with a 1924-1929 average of 9.93 pounds.

Ice cream has been the best business barometer. During the depression, consumption declined, reaching 1.18 gallons per person in 1933. Last year the average consumption increased to 2.22 gallons, which was about normal.

## CURIE ELEMENT TO AID MOTORS

Polonium Will Be Used In An Alloy For Spark Plugs

AKRON—Polonium, a rare element discovered in 1898 by the late Mme. Marie Curie which costs \$2,000,000 an ounce, will be used in an alloy compounded for the electrodes of a new spark plug.

Sufficient quantities of the metal are included in the alloy to fill the air immediately around it with enormously powerful alpha rays, said to be the most potent ionizing rays known to science. Ionization of the air is expected to cut a better path for the spark, making it possible to start a motor more quickly, accelerate it faster and make its performance more economical.

Polonium is said to emit 4,000 times as many alpha rays as radium. Its use in spark plugs has been the subject of six years of research.

Mme. Curie discovered the metal in pitchblende before she and her husband discovered radium. The element is named for her native Poland.

"Some conception of the enormous amount of energy radiated by polonium may be gathered by comparing it with the energy developed by a gallon of an automobile," a research announcement said. "Traveling at an economical speed, an automobile will cover about 20 miles on a gallon of gasoline.  
"An amount of polonium weighing the same as a gallon of gasoline would radiate sufficient energy. If it could be practically applied, to run the same automobile 1,000,000 miles."

## Movies Of Books Spurring Interest Of Nation's Readers

BY ROSE WILLIAMS  
United Press Correspondent  
NEW YORK — Does the book make the movie? Or does the movie make the book?

Librarians and book houses refuse to commit themselves. So does Hollywood. But one point is made clear by a survey—books are in about twice as much demand after they have been translated into a movie than before.

Ten days after the movie, "Gone With the Wind," was released, the publishers sold 350,000 copies of a special movie edition. In six weeks they had exhausted three printings, or 1,000,050 copies. Margaret Mitchell's novel, of course, is the classic example, yet it was the nation's most popular novel for two years after publication and long before the movie appeared.

"Grapes of Wrath" Revived  
John Steinbeck's "Grapes of Wrath" is only a few weeks old in celluloid form. Already the demand for the book has been mounting steadily. Said Robert L. Hatch, of Viking Press:

"I don't know the ultimate effect the film will have on this book, but the immediate effect is certainly stimulating."

Waiting lists of public libraries are reported growing. Recently one library disclosed that 2,465 readers had signed up to wait their turn.

# SAINTARY COPS CLASS A CAGE CHAMPIONSHIP

## Last-Minute Rally Gives Enamelware Cagers Close Victory Over Playoff Foe

Sanitary Scores Field Goal and Two Free Throws In Last 30 Seconds To Defeat O. S. E. S., 41-39, In Class A Series

The National Sanitary held the championship of the city's Class A basketball league today, but only after pulling out of a tight squeeze with the Ohio State Employment Service, its rival in the playoff for the senior league title.

Scoring a field goal and two free throws in the last 30 seconds of play, the Sanitary came from behind to nose out the O. S. E. S. passers, 41 to 39, in the second game of the best two-out-of-three playoff at the Memorial building last night.

The victory gave the Sanitary undisputed claim to the Class A championship, the Enamelware cagers having won the first game of the series last Thursday, 43 to 33.

By capturing the league championship, the Sanitary closed a successful season in which they dominated three of the five rounds of Class A play, posting 21 wins against five losses.

Pulling last night's deciding game of the Class A series out of the fire was probably one of the toughest assignments the Sanitary faced all season.

Leading by a small margin throughout most of the game, the O. S. E. S. passers were out in front by two points, 39 to 37, when but 30 seconds remained to play.

### Protests Foul

Getting the ball out of bounds as the seconds ticked away, Al Catlos of the Sanitary hooped a high pass under the basket to Bob Jeffries, who dropped the ball through the hoop to tie the score at 39-all. Referee Graber of Alliance ruled that Jeffries was fouled by Bill Cope, captain of the O. S. E. S. team, on the play and awarded the big Sanitary center one free throw. Cope violently protested the ruling, causing Referee Graber to call a technical foul against him, thereby giving the Sanitary two free throws.

Catlos, a crack shot from the foul line, fired the technical free throw, making it good to put the Sanitary in the lead, 40 to 39. Jeffries then added his free throw to sew up the decision.

The Sanitary was on the short end of the "score" throughout the first three periods and most of the fourth quarter. The O. S. E. S. quintet led 13 to 7 at the end of the first period, 23 to 19 at halftime, and 34 to 33 at the close of the third quarter.

Jeffries and Catlos counted 33 of the Sanitary's 41 points. Cope and Glenn (Dinty) McLaughlin led the Employment Service scoring with 12 and 10 points, respectively.

NEW YORK, March 26.—Our operatives report the three best football teams in the south next fall will be Tulane, Duke and Tennessee. Wallace Wade, Duke's head man, is going around the Carolina golf tournaments looking like he had just swallowed an entire aviary. (And it isn't his golf score he is proud of, either.) Clydel Castleman's poor showing is the biggest disappointment of the spring to Billy Terry. Young Al Davis, who is not a very good reputé with polite fistic society because of his candy store smacking, etc., will be given a terrific buildup by the fight-mob. First step was to appoint the suave Lew Burston as his manager. Paavo Nurmi says the royal welcome Taisto Maki is getting from Finnish folk all along the line is taking a lot out of Taisto's galloping.

**We're Asking You**  
We'd like a long vacation. But where is there to go. When golf in North Carolina. Is twice postponed by snow? Attention scouts: Here is the announcement you have been waiting for. . . Down in Dixie there's an embittered 18-year-old boy who can hurl a rock 397 feet with his left arm and 297 with his right. His control is so good he's been banned from all the ball throwing games at the county fairs. He doesn't chew, but goes for a root beer or two on Saturday nights. . . He has his own uniform and a home made bat with which he socked a 400-foot homer p'umb over the school house last summer. . . He'll work for \$2 a week and his board and if he doesn't win four of his first five games, he'll pay his own board. All he asks is a chance. . . P. S. Larry Williams, manager of the Lawrenceville (Va.) club has the inside track. . .

**Here Are The Finest**  
Som Boston one of the better Broadway handicappers is the first out with figures on the major league races. . . In the American league the Yanks are 1-3, the Red Sox 5-1, Philadelphia 50-1 and St. Louis 200-1. The Cards are quoted 2-1 in the National followed by the Reds 5-2, Cubs 6-1, Giants 7-1, Braves 10-1, Bees 50-1 and Phillies 200-1.

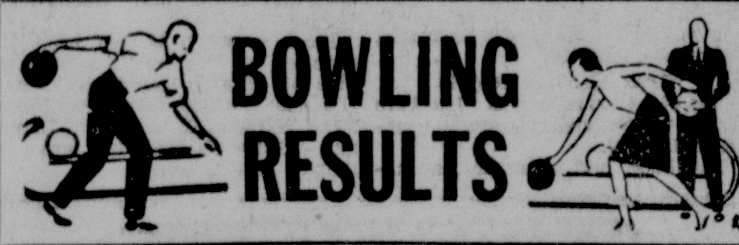

**Sports cocktail:** The N. Y. papers are taking turns selling the Yanks again. . . Ten days ago one had 'em going to Governor Murphy of New Hampshire. . . Yesterday another came up with (A) doubleheader bite from Postmaster General Farley and former Governor Cox of Ohio and (B) Joseph Patterson, New York publisher and an associate. . . Who's next? Add 'Yankees sale dept.' It is just possible the Yankees could use a little fresh dough at that. . . Anyway, we see they've got the world champions bumping around Florida on a bus.

## BOWLING RESULTS

Standings remained unchanged as the American and Quaker City leagues resumed their schedules last night after a short layoff during the City Handicap Tenpin tournament.

The top-ranking Electric Furnace keglers in the American league increased their lead over Fernangle's Colts from 11 to 13 games by winning three heats with Lease Drugs while the Colts dropped two games to Demings.

In other American league matches the Ohio Edison took two games from Fitzpatrick Super Service and the Masons won two games over the Democrats.

The leading Colonial Finance team of the Quaker City league lost two of three games with the Golden Eagle, but remained safely out in front despite the set-backs.

Other Quaker City matches saw the Columbiana Tyme Club sweep three games from Flooding & Reynard. Burt Capel Realtors take three games from the Coy Buicks, the Hotel Lape win two heats over Grate Ford V-8's, the Althouse Motors port two wins over the Masons and the Salem Motors win three games on a forfeit by the Recreation Billiards.

Three Quaker City keglers were over 600 with Merv Thomas hitting 618, Herb Ward 602 and Virgil Willis 614. Thomas included a 242 game in his series.

## DODGERS' FANS TOLD TO WAIT ANOTHER YEAR

Brooklyn Club Not As Yet Ready to Go Places In League

By GAYLE TALBOT.

CLEARWATER, Fla., March 26.—Somewhat earlier than usual, it becomes necessary to tell the ever-hopeful Brooklyn fans to "wait until next year."

This is a painful duty, because the Dodgers got their following even more excited than usual by climbing into third place in last year's National league chase, and the Flatbush fans are going to be loud in their disappointment if the team doesn't do at least as well this time.

But that's the point. They might have difficulty staying that high. With all their new players, including Outfielders Joe Vosmik and Roy Cullenbine and the little squirrel of a shortstop, "Peewee" Reese, the Dodgers still are really sound in only one department, their infield.

Manager Leo Durocher, who imported and exported outfielders like a commission merchant all last season, still hasn't found a combination that suits him. All he knows for sure at this point is that the slowing Vosmik, purchased from Boston for \$25,000, will hold down left field.

**Needs Center Fielder**  
Despairing of finding an established slugger to patrol the center garden, Durocher is thinking seriously of starting the race with 20-year-old Charlie Giffert from Nashville in that important spot. If he does, it can be taken as an admission that the Dodgers don't hope to win this year but are building seriously for the long haul.

If Cullenbine can hit better than he did with Detroit, he is a cinch for the third outer post, for he is a ball hawk and owns a fine throwing arm. Otherwise, Durocher must fall back on run-of-the-mine outfielders.

Everybody seems to think that Reese, the \$50,000 kid from Louisville, is on his way right now toward shortstop immortality. Reese looks like a natural. He is going to get every chance, for Durocher is nursing a sore arm this spring and is anxious to retire to the bench anyway.

The other cogs of a "slick infield" are Dolf Camilli at first, Pete Coscarart (who drove across the winning run in the All-Star game) at second, and Cookie Lavagetto at third.

## SOOSE INJURED, BUT WINS BOUT

Suffers Deep Cut In His Cheek While Beating Frank Nelson

CLEVELAND, March 26.—Promoter Bob Brickman, with his ill-fated boxing card only hours away, went substitute hunting again today.

The original program for tomorrow paired heavyweights Buddy Knox, of Dayton, and Bob Tow, of Washington, D. C., and middleweights Teddy Yarosz, of Pittsburgh, and Jimmy Reeves, of Cleveland, both for 10-rounds.

Then Yarosz, who had signed for a Los Angeles fight with Turkey Thompson, refused to fill his engagement here in spite of pleadings and suspension threats. Billy Soose, the Farrell, Pa., youth agreed to replace him.

Everything went well with the plans until Soose, attempting an iron-man stunt, fought Frankie Nelson, of Dayton, in the Youngstown last night. He dislocated the western lad, but in so doing suffered a deep gash on his right cheek that physicians said would keep him out of the ring two months.

**Card Goes On**  
Brickman said the card would go on regardless and that he still hoped to obtain Tony Cisco, of New York, who is rated eighth among the nation's middleweights, to take on Reeves.

Soose, who scaled 157, won the costly decision by a tally near the end of his 10-round with Nelson, who weighed 156.

Milton Glass, 128, of Akron, knocked out Frankie Flynn, 127, of Rochester, N. Y., twice in one of the Youngstown preliminaries. Glass dropped the New Yorker in the first round of their bout, but Flynn got to his feet just after the referee counted 10. The crowd shouted for more and both boxers obliged. Glass knocked Flynn again in the second.

Other results included Johnny Dean, 159, of New Castle, Pa., defeated Norm Columbus, 149, of Rochester, in six; Andy Weitz, 141, of Youngstown, outpointed Leo Sweeney, 137, of Pittsburgh, in six; and Steve Morgan, 160, of Youngstown, decisioned Paakey McFarland, 162, of Warren, in four.

**FOREST HILLS, Cal.—**Mr. and Mrs. Walter McFarlane were believers in Greek mythology they would certainly believe the gods had conspired against them. First, their summer home was flooded and damaged by an overflow of the Russian river. Then while they were both at work cleaning the mud and debris, fire broke out in the attic and the house burned down.

## COLD WEATHER CHECKS DERBY HORSES' DRILL

Training Schedules of Favorites Reported Curtailed

LOUISVILLE, Ky., March 26.—Continuance of cold weather has brought uneasiness to the "hard-boots" hopeful of seeing a Kentucky-wintered horse win the Kentucky Derby May 4.

Col. E. R. Bradley's Bimelech, current 5-2 winterbook choice to romp home first in the \$75,000 added Churchill Downs classic, second richest race to be run in America this year, wintered at Bradley's Idle Hour farm near Lexington.

A prolonged spell of inclement weather that has interfered with training schedules of "Bimelech" and numerous other derby candidates both here and in the bluegrass, prompted one track scout to remark:

"If we don't get a break in the weather, and that right soon, you can count the 'boots,' including Bradley and Bimelech, out of the derby picture and start casting your peepers around for some horse which wintered in the south."

**In Warmer Climes**  
(Derby nominees which have been favored this year by warmer climes include Andy K., Potranco, Rough Pass, Roman Flag, Dit, Prompt Pay, Red Docks, Gramps, Moland, Blue Suit and Royal Crusader.)

Several horsemen, hovering around stoves in tackrooms at the Downs, ventured the opinion that there was only an outside chance for a horse which wintered in Kentucky to win the derby.

(The past winter was the most severe Kentucky has experienced in years.)

Even Charley Ferguson, whose Black Brummel already has traveled six furlongs in less than 1:20, is beginning to show signs of concern and to complain the weather has retarded his "big boss."

Winter-raced horses seldom have captured the derby and chances of the winterbook favorite scoring a triumph are slim, too.

The consensus is that the next two weeks ought to tell the tale.

## PEACEFUL U. S. IRKS BRITISH

British Press Declares "Goebbels' Lies Sweep America"

(Continued from Page 1)

So far as actual "propaganda" goes we don't like any of it and are wary of all of it, whatever its source. However, if we seem particularly shy of certain types of British publicity it strikes me that it is due largely to one reason.

I refer to the rather constant effort to persuade or pull us into the war in support of the Allied cause. This certainly has caused

widespread resentment in America, and may have colored the view of some of our people towards legitimate news.

England apparently fails to recognize how intensely we resent anything which we consider infringement of our freedom of thought and action. Everything will go all right if our British cousins only recognize that we very independent and perhaps too opinionated Americans will do what we are going to do for our own good reasons. We decline to be driven.

LONDON — Britain's champion diarist, J. J. Jackson Barstow, Deputy Lieutenant of Somerset, who faithfully kept a daily record for 78 years, is dead at the age of 96 at his home at Wes-on-super-Mare. The first entry in his diary, on Jan. 1, 1862, tells how he fell through the ice.

## CANADA'S CROP OUTLOOK GOOD

Drouth Devastated Area Sees Comeback With War Price Rise

REGINA, Sask. — Farmers of Saskatchewan, Canada's premier agricultural province, look upon 1940 to return them the best year's income in more than a decade.

Preparing to go on a land scoured by drouth these farmers—hard hit by economic depression for years—in 1939 harvested the first good crop in more than 10 years. Now, with the war raising prices of agricultural produce, both grain and animal, they vision 1940 as being even more lucrative.

There has been little to date to mar the agricultural outlook in Saskatchewan. Though sub-soil moisture is reported below normal, that is not an unusual condition in Saskatchewan and with good spring moisture, until July, farmers hope to harvest a good crop. Grain prices are not yet high, but they have climbed gradually in the past few months. Farmers believe that due to the war, prices will have risen more by the time the next harvest is due, about eight months from this date.

### Farmers Have Own Seed

One bright spot in the farm picture is the fact that for the first time in years, the provincial government will not have to purchase seed for farmers to begin their crop year. The past year yielded plenty, both seed and feed, to virtually all districts in the province. It is a tremendous contrast to the spring of 1939, when the provincial government had to advance \$1,500,000 to rural municipalities to aid farmers in the purchase of seed and feed.

In northeastern Saskatchewan, around the Whitefox district which has gained wide fame in the past six years for the high quality production of alfalfa seed, alfalfa farmers expect an exceptionally banner year in 1940. Last year was their first setback since alfalfa farming was begun, only 2,000,000 pounds being harvested instead of the anticipated 6,000,000 pounds.

### Fewer Insects Indicated

Insect pests will be at a minimum in 1940, according to government entomologists. The recurrent grasshopper plague will be at the low point of its cycle and the grasshopper infestation is reported to be the lightest for years. But animal breeders, excluding those of horses, stand to profit most by the wartime rise in prices. Particularly so the hog breeders. Saskatchewan, with a hog population of 500,000, looks forward to a sharp rise in both prices and population in 1940. With Canada supplying between 4,400,000 and 5,600,000 pounds of bacon to Britain weekly under a war-time contract with the Canada Bacon Board, hog raisers are assured a steady price for their product.

Cattle men foresee a good year. While there has been no spectacular rise in cattle prices, there has been a steady upward trend. A more favorable trade treaty with the United States increased Canadian exports of cattle by 100,000 in the first 11 months of 1939, statistics show. In 1939, Saskatchewan had about 1,200,000 cattle, representing a small increase of 42,000 over 1938.

### Firemen Injured

LOS ANGELES, March 26.—Benjamin Myers, 59, averted a collision of a fire truck with an automobile, but he and two other firemen are in a hospital today with injuries resulting from the effort.

On the way to a grass fire, Myers swerved the truck sharply and it overturned. He suffered a hip injury, while two volunteer firefighters, Steven Szuhay, 25, and Zenon Leshinski, 32, suffered possible skull fractures, lacerations and bruises. The driver of the automobile, a 15-year-old Amherst, O. boy, was released after questioning.

## WAR POLICY IS CANADIAN ISSUE

Liberal Party government Stakes Existence On Election

(Continued from Page 1)

some 60,000 Canadians have joined the colors.

Members of the armed forces in Canada and England completed balloting Saturday but their totals will not be known until April 1, or later.

Of the 669 candidates for the 244 seats at stake, 239 are liberals, 212 are followers of Dr. Manion; 96 represent the co-operative commonwealth federation; 28 the new democracy and 94 are independents or of miscellaneous parties.

Death of Willie Poisson, liberal candidate in the Three Rivers constituency, resulted in postponement of the election there until some later date.

On dissolution, the liberals held 176 seats and the conservatives 39. The house of commons term is for five years, unless sooner dissolved. Senate members are summoned for life in the governor-general.

While the major parties were concerned largely with the issue, the cooperative commonwealth federation campaigned on domestic financial and social matters. The new democracy advocated war mobilization of the whole power of the nation.
